

LONGMONT UNITED HOSPITAL

Unique options. Extraordinary care.

October 21, 2005

Ms. Joyce E. Condon, Reference Librarian
Medical library
Exempla St. Joseph Hospital
1835 Franklin Street
Denver, CO 80218-1191

Dear Ms. Condon:

On behalf of the entire staff of Longmont United Hospital, I want to thank the Advocacy Committee of the Colorado Council of Medical Librarians for bestowing upon me the "Administrator of the Year" Award. I am very humbled and appreciative of this recognition. I am proud that Longmont United Hospital is committed to improving the health of our patients and communities we serve. A community resource library that is freely accessible to the public is one of the many ways we can encourage our community members to make informed decisions about their healthcare.

Although I am very grateful for this honor, without the excellent leadership, organizational skills, professional expertise, and vivacious personality of Teri Manzanaras, our Community Resource Librarian, this program would not be what it is today. I cannot say enough positive things about Teri. She brings such enthusiasm and expertise to building and maintaining quality resources for not only our community, but our entire hospital family. We are very blessed to have her a part of this organization.

Again, please accept my heartfelt thank you for this recognition and for being a part of the festivities during our open house on October 18th. It was a pleasure meeting you.

Cordially,

Mitchell C. Carson
President and CEO

MCC/jc
