

Colorado Council of Medical Librarians Annual Report 2014-2015

The CCML association this year has continued with the growth of our members. We have grown in the form of face-to-face networking during our meetings, acquiring leadership roles with committee chairs and member and also the knowledgeable continuing education classes (see education report).

A couple of our members have retired from their jobs. These members contributed a lot to the success of our association. Looking into the future it depends on the participation of our current members to our success.

I want to thank everyone on the executive committee without your help my job could not have been done.

Internet Committee Report 2014-2015

The Internet Committee had a quiet year following our migration to the Wild Apricot hosted service in the previous year. The webmaster/Chair of the committee posted upcoming CCML meeting details to the website's Events calendar, and also posted final meeting minutes when they were received.

Several new members were added to the CCML List, which currently stands at 122 members.

In early 2015, the webmaster/Chair worked with the chair of Membership to fix various macros and date fields in the administration settings of the CCML site. This should resolve the issue of deceptive membership renewal and term dates appearing in automatically generated renewal emails and invoices that are sent to members annually at renewal time.
